

## **PRESS RELEASE**

### **Elnusa Supporting Oil and Gas Services Business Segment, Inaugurate the Record Management Center Building**

Jakarta, 14 April 2022 – PT Elnusa Tbk (Elnusa), a leading energy service provider, was present at the inauguration of the Record Management Center (RMC) Building owned by PT Sigma Cipta Utama (SCU) which is a subsidiary of Elnusa, this inauguration moment also coincided with the 42nd Anniversary of SCU. Board of Directors & Management of Elnusa and the Directors of Elnusa Subsidiaries also presented at the event.

SCU Director, Dian Nugrahaningsih opened the event by thanking Elnusa Management and Subsidiaries for their presence at this happy moment. The age of 42 years proved that SCU has grown and developed until this day. This all because of the services, products and innovations carried out by SCU Officers, so we could gain recognition from our clients. "In an effort to increase the trust of clients, SCU always improves its competence and capacity over time. One form is with the construction of the RMC Building, for the addition of new storage, which is officially operational today. Hopefully with the increase in storage capacity, it can make SCU even more advanced and increase profits even better in the future," she said.

On the same occasion, Elnusa President Director John Hisar Simamora wished SCU a happy 42nd birthday. For 42 years SCU has supported energy security through data management in the oil and gas industry. "Through the addition of this age, there is also hope to make a series of achievements in the company. SCU proves its increasingly towering development by inaugurating the RMC Building, a business development investment to support the Company's better performance in the future and hopefully in the future, the data stored will no longer consume space because the data can be changed in digital form," he said.

The RMC building, which can store 130,000 boxes of documents, began construction on April 12, 2021. RMC Building is located adjacent to the SCU Building and has an area of approximately 1,000m<sup>2</sup>. Through the addition of these assets, it is expected to be able to anticipate the need for storage existing clients and prospective clients in the future and to maintain and expand the market in the field of Data Management & ICT Services leading in Indonesia.
