Accelerate *Herd Immunity*, 'Healthy Vaccinations with Elnusa' Has Been Held

Jakarta, 30 August 2021 - As a series of celebration 52nd anniversary, PT Elnusa Tbk (ELNUSA) held a 'Healthy Vaccination with Elnusa' as a form of herd immunity acceleration program in Indonesia (28-29/08). The first and second dose of covid-19 vaccination held in Graha Elnusa Canteen Area. This vaccination program was not only for Perwira Elnusa Group and partners but was also open to the general public.

Elnusa cooperated with Pasar Minggu District Health Center and DKI Jakarta Health Office provided Astra Zeneca vaccine for the age of 18 years to 59 years. A total of 289 vaccine participants have registered online and recorded 251 participants who passed the screening test, which the participants who have been ascertained their physical condition was in a healthy condition and worthy of vaccine injection, not pregnant, and blood pressure was not high.

Director of Operations and Director of Business Development of Elnusa, Rony Hartanto in the opening of the event expressed gratitude that Elnusa could still carry out the mandate to all Elnusa stakeholders, namely the surrounding community, the area of operation, and the business agencies related to Elnusa. "Healthy Vaccination with Elnusa is a form of carrying out trust, synergy, and also Elnusa's collaboration with all stakeholders," he said.

On the same occasion Rony added "Vaccination is not the only way to avoid the covid-19 outbreak, but it is an effort to minimize the effects of being exposed to covid-19. For those who have received the vaccine, must remain aware of complying with health protocols for the sake of the creation of Herd Immunity immediately."

Furthermore, the Safety Moment delivered by the Event Trustee, Dr. Hasto, also invited elders or people who have comorbid (congenital diseases) so as not to be afraid of vaccination. "Data shows that covid-19 vaccination has been shown to reduce fatality rates. As many as 94% of covid-19 patients who die are un-vaccinated, and with vaccines it can reduce fatality rates by as much as 84% in people who have comorbid."

"Keep in mind that the body needs time to form antibodies so that anyone who has been vaccinated should not abandon the health protocols (keep the distance, wash the hands, wear mask, stay away from crowds, limit mobilization and interaction) until the pandemic is declared over." Furthermore, the covid-19 vaccination will be implemented again by Elnusa in upcoming November 2021.
