

PRESS RELEASE

Support Development of Seismic Sciences, Elnusa Grants Seismic Survey Equipment to University

Jakarta, June 7, 2018 - PT Elnusa Tbk (Elnusa), a reputable energy service company, supports the development of seismic science in Indonesia. This support is a dedication and a form of social responsibility of Elnusa to improve national competence.

Elnusa's Head of Corporate Communications, Wahyu Irfan stated, "Elnusa has been conducting seismic survey services for more than 30 years. As a dedication to support national capacity, we take the initiative to participate in the development of seismic survey competencies for various educational and scientific institutions."

Elnusa grants seismic survey equipment to two educational institutions, namely UPN "Veteran" Yogyakarta and Institut Teknologi Sumatera on 5-6 June yesterday, located at their respective universities. Previously Elnusa has granted this equipment to the Indonesian Institute of Sciences (LIPI) in 2014.

Wahyu added, "The university is the center of transferring knowledge. The grant of survey equipment may support university activities in more in-depth seismic survey science. We hope it will stimulate new scholars who can support oil and gas exploration activities in Indonesia, in the future".

The granted equipment is the equipment used by Elnusa to deliver total solution services to seismic survey services to clients. So the reliability of the equipment has been tested. Total Solution Services is a suite of services offered by Elnusa in accordance with the needs of clients to solve operational problems comprehensively. This service is Elnusa's answer to the dynamics of the oil and gas industry and customer challenges in delivering better, faster and cheaper services.

PT Elnusa Tbk (Elnusa) at a Glance

Elnusa is a reputable energy services company providing total solutions with core competencies in geoscience & production services, energy distribution & logistics, and support services.
