PRESS RELEASE

Elnusa conducts a Virtual Management Walk Through Ensuring HSSE Aspects in the Pertamina Hulu Sanga Sanga Welltesting Project

Jakarta, March 7 2023, PT Elnusa Tbk (Elnusa), an energy services company with core competencies in upstream oil and gas services, energy distribution and logistics services, as well as supporting services which are members of Pertamina Upstream Subholding, implemented a Virtual Management Walkthrough (VMWT) to Project Welltesting Pertamina Hulu Sanga Sanga (PHSS) Mobile Testing Unit. The purpose of implementing this MWT is to ensure that the Company's Health Safety Security & Environment (HSSE) policy has been understood by all employees, ensure that the policy has been implemented in the field and get input on any obstacles in implementing the HSSE policy.

Project Performance from the PHSS Mobile Testing Unit for the period January 2022 to January 2023 managed to record Zero Lost Time Injury (LTI). During this period, 162,240 Man Hours were recorded without a Lost Day Incident. This achievement can be achieved thanks to all employees who are always committed to properly implementing HSSE aspects in work operations as indicated by the presence of a total of 1,895 Hazard Observation Cards (HOC) reported.

MWT officials who attended were Elnusa Director of Operations Charles Harianto L. Tobing, Vice President Asset Reliability & Productivity Achmad Zaki, Senior Manager Enterprise Risk Management Mira Puspitawati, Senior Manager Information System Guruh Ariyanto, Vice President HSSE Ramon Arias Pili, and the entire team who were operate.

HSSE Vice President Ramon Arias Pili on the MWT occasion said that the HSSE Golden Rules and 15 Corporate Life Saving Rules (CLSR) are very important as the basis for all front liners in carrying out all work. In addition, Elnusa Director of Operations Charles Harianto Lumbantobing on this occasion also appealed to always pay attention to the findings of unsafe acts and unsafe conditions because these are important foundations in work safety.

"The foundations of unsafe acts and unsafe conditions need to be properly considered and also evaluated periodically in order to mitigate the risk of unwanted events that can occur. Tools and equipment that are no longer suitable for use should be replaced in order to create work safety in the area of operation. Charles concluded.

About Elnusa (IDX: ELSA)

Elnusa is a subsidiary of PT Pertamina Hulu Energi (PHE) incorporated in Subholding Upstream Pertamina.
