

PRESS RELEASE

Energy Distribution in North Sulawesi Smoothly Guaranteed, Elnusa Directors Visit Bitung Integrated Terminal and Amurang LPG Mini Depot

North Sulawesi June 9-10, 2022, PT Elnusa Tbk (ELNUSA IDX: ELSA) A leading energy services company that provides a total solution ensures that energy distribution transportation in North Sulawesi and its surroundings runs smoothly. This work is one of the energy distribution & logistics business segments managed by its subsidiary, PT Elnusa Petrofin (Elnusa Petrofin).

Elnusa's Director of Business Development, Ratih Esti Prihatini, Director of Human Resources & General Elnusa Tenny Elfrida and accompanied by Director of Operations and Marketing Elnusa Petrofin Nur Kholis visited two pulse points of energy drive in North Sulawesi, Integrated Terminal Bitung and Mini Depot LPG Amurang. The visit was carried out in a Management Walkthrough (MWT) activity to ensure that operations run smoothly according to procedures and the implementation of Health Safety Security & Environment (HSSE) is carried out and understood by all workers.

Elnusa's Director of Business Development, Ratih Esti Prihatini expressed her appreciation for the teamwork efforts at the Bitung Integrated Terminal (IT) and Amurang LPG Depot in delivering energy in North Sulawesi from the fasting month until after The Eid day went smoothly. "This is a clear proof of the solid synergy between Pertamina and Elnusa Petrofin in completing the work and hopefully this can continue to be maintained and even improved for the better in the future. Always prioritize the HSSE aspect, continue to activate communication and coordination, because we are an Elnusa family as well as Pertamina who must take care of each other". Ratih said.

On the same occasion, Elnusa HR & General Director Tenny Elfrida also gave the highest appreciation to Elnusa Petrofin Officers at IT Bitung and Mini Depot LPG Amurang. "This year, people throughout Indonesia are allowed to go home by President Jokowi, and Elnusa Petrofin Officers as the frontline that delivers energy in the North Sulawesi region have jointly maintained good operating performance and HSSE without any sign of fuel scarcity during the last high season. Always remember three things that are the key to success to reduce the potential danger to high-risk jobs. The importance of the HSSE Golden Rules, namely, Compliance, Intervention, and Care. With the implementation of the HSSE Golden Rules, we believe that operations at IT Bitung and Mini Depot LPG Amurang can make excellent HSSE performance until the end of the year." Tenny said.

Meanwhile, Elnusa Petrofin's Director of Operations and Marketing Nur Kholis expressed his gratitude for the performance of HSSE in these two operating areas, which until now still recorded zero accidents, continuing to maintain it well until the end of 2022 in the future. "In addition to prioritizing HSSE, also work with a mandate without trying that is not his right, and the last is to always maintain cleanliness in the environment where we work, with clean and comfortable work tools, work will increasingly produce good performance in the future". Nur Kholis said.

Bitung Integrated Terminal Manager of PT Pertamina Patra Niaga, Rudi Mahendra welcomed the presence of Elnusa Management. "The presence of Elnusa Management in this MWT is a clear proof of commitment to HSSE aspects in the area of operation. Currently the most important and a main aspect, continue to maintain and improve the aspects of the HSSE that are already running well and communication between Elnusa and Pertamina, thus the work in the future will be easier. For the LPG Mini Depot, increase vigilance and mitigate and anticipate the worst that may occur." Rudi said.

This energy distribution & logistics services segment is one of the growth engines that contributes greatly to Elnusa. Elnusa Petrofin is trusted to manage energy transportation at the Bitung Integrated Terminal since 2009. Meanwhile, Elnusa is also trusted by Pertamina for the operation of the Amurang LPG Mini Depot with a full capacity of 2 x 1000 Metric Tons (MT) since 2019. The Amurang LPG Mini Depot distribution channel is to meet the needs of subsidized and non-subsidized LPG throughout the North Sulawesi region and parts of Gorontalo which is distributed and carried by skid tanks to seven LPG bulk filling stations (SPBE).

In a series of MWT activities, Petrofin Peduli launched the Social and Environmental Responsibility Program (TJSL) of the Sapa Raya Village Waste Transportation Fleet (ASIAP) in Amurang. The ASIAP program is expected to be able to provide appropriate solutions to the community in overcoming garbage in the sea. As for symbolically as a first step that will be sustainable, ASIAP is characterized by the handover of an operational motor unit with a capacity of 300 L for the transportation of waste.

This Amurang LPG Mini Depot is one of the backbones of the economy of the North Sulawesi and Gorontalo regions. Not only that, the presence of Elnusa is also expected to provide color and benefits to the surrounding area by involving regional people in the operational and business continuity of Elnusa. Elnusa is also committed to contributing to the country as part of support for national energy security and plays an active role in supporting Upstream Subholding, Pertamina Group and other PSCs in realizing the target of increasing national production of oil by 1 million barrels per day (BOPD) and natural gas 12 billion standard cubic feet per day (MMscfd) by 2030.

Overview of Elnusa (IDX: ELSA)

ELNUSA is an energy service company with core competencies in upstream oil and gas services, namely seismic services (geoscience services: land, transition zone & marine and data processing), oil & gas field drilling & maintenance services (drilling & oilfield services), engineering services, procurement, construction & operation maintenance (EPC-OM), and other supporting services. ELNUSA currently serves national and international oil and gas companies, including Pertamina Group, British Petroleum, Conoco Phillips and others. ELNUSA has five subsidiaries engaged in the business of energy distribution & logistics services and other supporting services.
