## **PRESS RELEASE**

# **Developing a New Business, Elnusa Holds Pertapixel Customer Day 2023**

**Jakarta, 5 July 2023** - PT Elnusa Tbk (ELNUSA IDX: ELSA) which is part of Pertamina's Upstream Subholding continues to strengthen collaboration by holding Pertapixel Customer Day which was held at the Grand Hyatt Hotel Jakarta on Wednesday (21/6). This event was held with the aim of introducing mapping services provided by Pertapixel to various parties, both within the Pertamina Group internal environment, and externally such as the Ministry of BUMN and ESDM, as well as private companies and BUMN Groups. This event consisted of 2 sessions namely Drone Acquisition and Geographic Information System (GIS) for Asset Management then closed with an interactive discussion session. Pertapixel Customer Day is expected to be a trigger for collaboration with various parties so that it can be used optimally to facilitate the work of mapping services through the services and services provided.

Also present at the event, PT Pertamina (Persero) Vice President New Ventures, A.A.A.Indira Pratyaksa said that the introduction of Pertapixel as one of Pertamina's innovations would be a new opportunity to help accelerate data processing via drones. "In order for Pertapixel to grow bigger, Pertamina chose Elnusa to be its commercial partner because of its competence in the field of mapping services both on water, land and air." Obviously Indira.

Elnusa Director of Human Resources and General Affairs, Hera Handayani stated that Elnusa has had extensive experience in conducting survey and mapping services since 1980 and has continued to develop through innovations in survey and mapping services to date. "Elnusa is ready to carry out the mandate for Pertapixel's innovation to become a service that can be used today and well developed in the future," said Hera.

Pertapixel provides three types of services. First, Aerial Mapping Service, which is an aerial photo mapping service of an area using multi-rotor or fixed-wing drones. Second, Inspection, Surveillance, and Facility Monitoring services, which are service activities for monitoring facilities, inspecting and monitoring assets. Third, the Aerial Mapping Database System, this service is the creation and development of a Global Information System (GIS) that can be used as a tool in making decisions by policy makers.

### **About Elnusa (IDX: ELSA)**

About Elnusa (IDX: ELSA) Elnusa is a subsidiary of PT Pertamina Hulu Energi (PHE) incorporated in Subholding Upstream Pertamina.
