PRESS RELEASE

ELNUSA Bringing the Nation's Name to Istanbul International Invention Fair 2023

Jakarta, 2 May 2023, PT Elnusa Tbk (ELNUSA) who are members of the innovator representative of Pertamina Subholding Upstream succeeded in making the nation proud by obtaining the Silver Medal and the CIA AWARD-Invention & Innovation award from the China Association of Inventions (CIA) at the innovation event Istanbul International Invention Fair (ISIF) 2023.

The event, which was held from April 27 to May 1 2023, in Istanbul, Turkiye, is the largest competition and innovation exhibition in Turkiye, which has been participated in by various countries and has been held since 2016 under the honorary protection of the Turkiye Republic of the Ministry of Industry and Technology. Organized by the Turkiye Patent and Trademark Office (TURKPATENT).

The event attended by 35 countries, aims to showcase innovative and novel technologies from various countries, create international business opportunities, and initiate industrial transformation.

Elnusa through the FT-PROVE THICKENING TEAM with its innovation "Innovation of Cement Slurry Merah Putih on Hydraulic Workover Unit-Drilling Project for Shallow Gas", provides solutions to increase the competitive advantage of Elnusa's Cementing business unit in the shallow gas zone. This product is also superior from a technical point of view and has a more competitive economic value. Provides solutions to increase the competitive advantage of Elnusa's Cementing business unit in the shallow gas zone. This product is also superior from a technical point of view and has a more competitive economic value.

Elnusa Director of Business Development, Ratih Esti Prihatini, expressed his appreciation for the proud achievements of Elnusa Officers. "Through this innovative work, Elnusa Officers were able to bring the good name of Elnusa and also Pertamina on the international stage. We fully appreciate and thank you for the achievements of this Elnusa Officer who has been inscribed, we will certainly use this award as a trigger for enthusiasm to continue to make even better innovations and improvements."

Ratih added, "This award is the main key to Elnusa's competency as an Energy Services Company that is able to answer the challenges of dynamic technological developments. We look optimistically at opportunities for innovation and business development for Elnusa going forward," concluded Ratih.

About Elnusa (IDX: ELSA)

Elnusa is a subsidiary of PT Pertamina Hulu Energi (PHE) incorporated in Subholding Upstream Pertamina. As a total energy services solution company, Elnusa has core competencies in upstream oil and gas services, supporting services, and energy distribution and logistics services. The upstream oil and gas service line includes Geoscience & Reservoir services (land, transition zone & marine, and data processing), oil and gas field drilling & maintenance services (drilling & workover), engineering, procurement, construction & operation maintenance (EPC-OM) services. Supporting service lines include marine support services, fabrication, to data management. The energy distribution and logistics service line includes fuel transportation services, depot management, and chemical sales. Currently, Elnusa serves national and international oil and gas companies, including Pertamina Group, British Petroleum, Conoco Phillips, Soco Exploration (Vietnam) Ltd, etc. Elnusa is listed on the Indonesia Stock Exchange with the issuer code 'ELSA' and has five subsidiaries that support its competence.
