PRESS RELEASE

ELNUSA Innovation Wins Two Awards at the ITEX 2023 event

Jakarta, May 16 2023, PT Elnusa Tbk (ELNUSA) has just received two awards at the same time at the International Innovation, Innovation and Technology Exhibition (ITEX) which was held in Kuala Lumpur, Malaysia. Elnusa through PC Prove Transformers ELN won the Silver Medal and also the Excellence Invention award from the National Research Council of Thailand.

The International Innovation, Innovation and Technology Exhibition (ITEX) is the largest and oldest exhibition and innovation competition in Asia, which has been running since 1989. This year is the 34th event with the theme "Asia's leading invention, innovation and technology expo". More than 730 inventors from 19 countries participated and displayed their innovations in this event.

Elnusa Hydraulic Rig - 14 (HWU-EHR#14), is an innovation from Elnusa Officers in increasing the workover operation capability of oil and gas wells that can work on land, offshore, geothermal, and can also be used as a Hydraulic and Drilling Work Unit. This innovation has a compact design and profile, equipped with real-time data acquisition system technology and lighter materials by Elnusa independently. EHR-14 has advantages in several aspects such as ease of operation, rig up and rig down speed, as well as various other technological developments.

Elnusa HR & General Director Tenny Elfrida, appreciated all the performance and innovations produced by Elnusa Officers. "Innovations that are continuously carried out by Elnusa Officers show that Elnusa is able to answer global challenges where technological developments continue."

Tenny added, "Apart from qualified competence, Elnusa Officers also have a spirit of innovation which will certainly expand Elnusa's business capacity in the future. I appreciate all Elnusa Officers who have contributed to this proud achievement," concluded Tenny.

About Elnusa (IDX: ELSA)

Elnusa is a subsidiary of PT Pertamina Hulu Energi (PHE) incorporated in Subholding Upstream Pertamina. As a total energy services solution company, Elnusa has core competencies in upstream oil and gas services, supporting services, and energy distribution and logistics services. The upstream oil and gas service line includes Geoscience & Reservoir services (land, transition zone & marine, and data processing), oil and gas field drilling & maintenance services (drilling & workover), engineering, procurement, construction & operation maintenance (EPC-OM) services. Supporting service lines include marine support services, fabrication, to data management. The energy distribution and logistics service line includes fuel transportation services, depot management, and chemical sales. Currently, Elnusa serves national and international oil and gas companies, including Pertamina Group, British Petroleum, Conoco Phillips, Soco Exploration (Vietnam) Ltd, etc. Elnusa is listed on the Indonesia Stock Exchange with the issuer code 'ELSA' and has five subsidiaries that support its competence. Detail information can be accessed at www.elnusa.co.id.
